Professional Summary

Frontend developer with hands-on experience building interactive catalogs, animated interfaces, and membership platforms. Uses React, Next.js, JavaScript, and TypeScript to create intuitive web experiences. Brings customer service and team leadership experience, with an interest in contributing to a development team and starting a web development business.

Technical Skills

Languages: HTML, CSS, JavaScript, TypeScript

Frameworks and styling: React, Next.js, Tailwind CSS, Bootstrap

Tools and services: Git, GitHub, VS Code, Figma, Firebase, Stripe, Vercel

Development focus: Responsive design, accessibility, performance, thoughtful UX

Development Projects

Build Like a Pro | Minecraft Mob Catalog [Live project](#)

Built a catalog that helps Minecraft players explore mobs and find information about each creature.

Business Website Clone | Frontend Recreation [Live project](#)

Recreated a business website from a reference, practicing layout, page structure, and visual consistency.

NFT Website Concept | Animated Interface [Live project](#)

Developed a simulated NFT website with smooth animations and an engaging browsing experience.

Summarist | Book Membership Platform [Live project](#)

Built a book platform with user authentication and online payments for different membership plans.

Skinstric | AI Skincare Concept [Live project](#)

Developed an AI skincare concept with facial scanning and an interface presenting AI-generated estimates about user background.

Work Experience

UPS | Preloader / Cover Driver | August 2022 - Present

Load and unload delivery trucks, handle packages over 50 pounds, and operate UPS commercial delivery trucks to cover absent drivers and high-volume workdays.

Chick-fil-A | Front of House / Team Leader | April 2019 - February 2025

Provided customer service, took guest orders, and maintained front-of-house areas. Served as a team leader during the final two years of employment.

Education

Wesley Chapel High School | High School Graduate, 2020
